

pre-press

3-in-1 compact system for the exposure of the screens

MINI TRIS

Description

The 3-in-1 compact system model **MINI TRIS** has been designed and built for the **exposure of the screens**.

The equipment is composed by...

- **Pneumatic press:** it guarantees the perfect contact between film and screen, that is, it prevents the deformation of the image during the exposure.
- **Halogen lamp:** it makes possible the photogravure of the emulsion over the mesh of the screen.
- **Dryer with racks:** it makes possible the drying of the emulsion after the exposure of the screen.

Technical data	
<i>Usable screens:</i>	wooden and metallic frames
<i>Screen thickness range:</i>	up to 25 mm
<i>Screen usable size:</i>	350 mm x 450 mm
<i>Electrical supply¹:</i>	220 V one-phase, 50 Hz
<i>Installed power:</i>	1.9 kW
<i>Overall dimensions:</i>	(L) 650 mm x (W) 500 mm x (H) 1350 mm
<i>Net weight:</i>	70 kg

[1] Any other one-phase electrical supply available on request.

In order to improve the quality of the product, Mismatic Company is allowed to effect modifications in the manufacturing without any obligation to notify the same to the Customer.

Standard features

- ❖ **Pneumatic press equipped with:**
 - milled rubber belt and vacuum valve
 - vacuum pump
- ❖ **Exposure of the screens made by halogen lamp**
- ❖ **Dryer equipped with:**
 - 3 racks
 - heating system with resistances
 - recirculating system for the hot air
 - adjustable thermostat up to 60°C
